The Honda Gold Wing is a series of touring motorcycles manufactured by Honda.Gold Wings feature shaft drive, and a flat engine.Introduced at the Cologne Motorcycle Show in October 1974, the Gold Wing went on to become a popular model in North America, Western Europe and Australia, as well as Japan.

Honda Gold Wing - Wikipedia

Late model vehicles have many computerized systems; in most cases, each system is under the basic control of its own computer (module). There can be more than twenty modules on each vehicle and many of these modules have some sort of "learned" memory, which may be lost when the battery is disconnected.

Electrical Issues After Replacing the Battery - RepairPal

Backfiring can cause serious damage to an engine if the problem is not quickly fixed. The problem can usually be traced to the carburetor or distributor. The carburetor delivers the air/fuel mixture to the engine, and the distributor ignites that mixture within the cylinders. Thankfully, because both of these ...
