Ethical Decision Making in Research. Although codes, policies, and principals are very important and useful, like any set of rules, they do not cover every situation, they often conflict, and they require considerable interpretation. It is therefore important for researchers to learn how to interpret, assess, and apply various research rules and how to make decisions and to act ethically in ...

What is Ethics in Research & Why is it Important?

The Department of Political Science offers a wide range of modules in the subfields of international relations, comparative politics, political theory, and governance and public policy. It maintains particular strengths in the study of East and Southeast Asian politics while aiming to represent the whole range of the discipline.
